We Care Community Services, Inc.

***OFFERING A HAND UP
NOT A HAND OUT***

2012 Report to the Community

All contributions to We Care Community Services are tax deductible

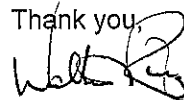

We Care's mission is to serve the residents of Rhea County by providing services that allow people to help themselves.

Report to the Community

In October 1982 there was no four lane highway to Chattanooga, no Wal-Mart, and fewer red lights but in Morgantown, We Care opened its Thrift Center. We opened initially two days a week. We heated the store with a wood stove; we had no air conditioning. Our budget for the first year was just over \$3,000.

Because of community support for 30 years, we have dramatically increased our services and the number of customers which now represent one-third of the population of our county!

Thank you for the trust you have placed in us to serve these needs, for the contributions of money and quality household goods you have donated and bought, for the volunteer hours you have contributed. Together we do make a difference in our community.

Thank you,

Walter Ring
 President
